PRICE TWO CENTS

Buried Treasure!

LONG AGO, men seeking a safe and secret depository for their money and plate, dug a hole in the ground and buried their treasure, often to lose it from one cause or another.

TODAY, even after centuries of progress and enlightenment, there still are people who prefer to hide their money in "secret" places, only to lose it by fire or theft.

The safest depository for your money and valuables is the one everybody knows about—The Bank.

BIG SMOKER PREPARED BY ONTARIO CLUB

"Hammy" Hamilton and Other Athletes to Speak

WED. NIGHT

Entertainment Includes Boxing Bouts, Music, and Free Smokes

A monster smoker which includes boxing bouts, excellent music, and speeches by eminent athletes both of the past and the present, will be staged by the Ontario Club in the Union Cafeteria on Wednesday night at 8.15 p.m. To all who hail from the Province to the west is extended a hearty invitation regardless of whether they have already become actively connected with the club or not.

Dr. R. L. Hamilton, much better known in college circles as "Hammy", has consented to speak at the gathering. "Hammy", who was president of the Student's Council last year, graduated in medicine with the "23 class; since then he has travelled extensively in England and the Continent. From the experience he has gained from travel and as a leader among his fellow students in the past, "Hammy" will not fail to assume the role of orator with a real message for delivery.

Another personage who in his student days was proclaimed one of the best all round athletes in Canada, will also speak at the smoker. The name of this eminent graduate—"Monty" Montgomery—is well known to all. While at McGill he was captain and all star player of the senior rugby team, in basketball he excelled, and as a boxer he clinched the amateur championship of Canada in the 145 pound class. The Ontarians expect "Monty" to show the same mastery on the platform as he did on the athletic field.

The presence of "Doug" McGregor, one of the bulwarks of the senior rugby squad and captain of it this year, will add one more name to the list of eminent athletes serving in the capacity of speakers. In the interluncheon between the speeches three bouts in the intercollegiate eliminations of the B. W. & F. will be staged. The names of the co-contenders are not yet known but it is certain that they will include some of the best material in training. It is also hoped that Clarence Casswell, president of the Eastern Townships Club, will attend the function in order to form a link between the two organizations and to promote friendly feelings between the sectional clubs. Provision has been made for the lovers of music. E. Wallace Willard B. A., has consented to give a few selections on the piano.

Free smokes in unlimited quantity will be passed around and it is expected that everyone attending will prepare to enjoy themselves to the full.

"DAILY" STAFF WILL HEAR MR. ARCHIBALD

Executive Editor of Star at Union Dec. 13th.

Mr. Archibald, the executive editor of the Montreal Daily Star, will address the staff of the "Daily" next Thursday, Dec. 13th. Mr. Archibald on several previous occasions has given talks to the staff which have always been most instructive and interesting.

The "Daily" is edited and written up entirely by undergraduates who in nearly every case have had no previous experience in newspaper writing before. It will, therefore, be of great advantage to everyone present to hear Mr. Archibald speak as he has had a great deal of newspaper experience and has a thorough knowledge of journalism.

The meeting will take place at 7.30 p.m. in the editorial rooms of the "Daily" in the Union. The editor-in-chief will probably address the meeting and will endeavor to point out a few mistakes which have come to his notice in the past, and at the same time give a few helpful hints on writing. The entire staff of the "Daily" is expected to be present. The News Board will hold a short meeting previous to the general staff meeting.

You won't see her till next year, except at the Union House dance.

MEDICINE TO MEET ARTS IN DEBATE

Interfaculty Debate on Anti-Vivisection

VITAL SUBJECT

Debate in Reading Room of Union at Eight-fifteen

The Medicine-Arts debate will take place tonight at 8.15 p.m. in the reading room of the Union. The subject for debate is "Resolved that the anti-vivisection campaign is justifiable."

These inter-faculty debates which are held every year are among the few contests between faculties which do not take place on the field or in the gymnasium. The speakers in the debates took as much, if not more, effort in their work as do the members of the various teams. That the contests are hard fought is most evident and the winning of the debate is the (Continued on Page 4)

Mrs. Harkness desires to express through the columns of the "McGill Daily" her deep gratitude to the great number of friends of Dr. Harkness who have by their letters, messages, and gifts of flowers, conveyed their appreciation of his life work and their sympathy with his family.

A further expression of gratitude is added to those who contributed to the music and hymns, particularly to the McGill students, at the service at Christ Church Cathedral yesterday afternoon.

EMPHASIZES WORLD-WIDE CO-OPERATION

States Views in Interview With "Daily" Reporter

FRITZ THALMAN

Former Student of Universities of Vienna and Innsbruck

Fritz Thalman, a senior at Toronto Varsity, formerly an undergraduate in the University of Vienna and Innsbruck, yesterday wrote the following article for the "Daily." Fritz, as he is commonly known among his friends, gives the Austrian viewpoint and strongly stresses the need of world-wide co-operation. The article is as follows:

The last cause for all working, studying in the whole world, is truth. Only with knowledge and truth can we build up the next—a better world. And we are architects. In every university there is a daily fighting for truth against darkness and error. I except the business student, for whom the university presents a good chance for money making.

You have received me as friend and "comillone," as European students would say—indeed, and how can I thank you better than to be a comillone (con millone) here, as well as at home, warrior with you, as with every student in the world. Five years ago did we not lie in Flanders, young students, Canadians, Germans, Austrians? Ypres? Thirty thousand young freshmen under the ground. And what does the Memorial Tower in Toronto teach me? You were defending yourselves in this fight for truth. And the German student? He had the same belief that he was defending the country from the enemy. For four years we believed this and millions died for this truth. Moral: the war came over us, just as it did over you, as a natural accident, although there were minority parties, such as some of the newspapers, steel and military parties, working for war in every country.

When I started I heard two voices from my country. The first was: "Say to the people over-seas that we are not anthropophagists or Huns." The second: "Ah, you go to England? It is a good policy to persuade the Austrians that he is the Englishman's friend."

What a horrible situation: Germans and Austrians working and living for the world, as other people do, forget Luther, Bach, Beethoven and Kant and believe the lie of a hysterical war movement. Even today, there are people, without knowledge of the world, who see blindly, even as in the war time. How much have we to do to bring light (Continued on Page 4)

MR. BLISS CARMEN HERE NEXT MONDAY

Greatest Canadian Poet to be at R.V.C. Next Week

Bliss Carmen, the eminent poet will give an interpretive reading of some of his poems at the R.V.C. next Monday. He is now on a transcontinental tour.

Bliss Carmen is a Canadian, born at Fredericton, N.B., educated at the University there and at Edinburgh and Harvard. In the twenties he moved to New York and engaged in editorial writing. He published numerous volumes of poetry, the high merit of which has been recognized by the conferring upon him of Doctor's degrees of Law and Letters by his own Alma Mater, by Trinity College, Hartford, and by McGill University. The recent publication of Canadian editions of his poems and his tour of Canada giving readings from his own poems has made him a prominent figure in the literary life of the Dominion.

Some of the books written by him are "Ballads and Lyrics" and "Later Poems."

He will be at the R.V.C. on Monday evening Dec. 17th. Tickets are being sold for seventy-five cents at Chapman's Book Store, Bonson and Hedger and at the University. They may be bought also at the door.

If you want a happy remembrance come to the Union House Formal.

MONTREAL, TUESDAY, DECEMBER 11, 1923.

THIS WAS A MAN

Yesterday afternoon hundreds of mourners, from the humblest freshman down to McGill's Principal, bowed their heads for a few moments, saying their last farewells to the mortal remains of one dear to them, Dr. James Harkness, twice Acting-Dean of the Faculty of Arts, beloved professor of many students, of this day and of the days gone by. The end of a life had come and as we listened to the beautifully solemn strains of the Dead March in Saul we could not help but think of the lines written by the Master Poet, Shakespeare:

"Lives but a walking shadow, a poor player
That struts and frets his hour upon the stage
And then is heard no more."

Yes, that is what we are, players in the greatest drama and some day, even to-morrow, the curtain will be rung down and we shall pass on to that "undiscovered country from whose bourn no traveller returns." But now the play is on and we, the actors, must take our parts. We cannot sit in the stalls and look on. That is not living. We must throw ourselves into our work and play on and on until our lines are ended and we are withdrawn forever, our roles being taken by those who come after. At present we, as undergraduates, are mere supers and our parts but little. We say but few words, and they are weak, and we move along the back of the stage, practically unseen and unsung. But the day is coming when some of us must fill the gaps left in the ranks of those who are to-day in the heavy roles. We know not what parts we shall be called upon to take ten years from now—that is in the hands of the great director, Destiny—but these are days of preparation and study, important days, for we are forming ourselves for what is yet to come.

Yesterday the University mourned, while the remains of one were consigned to the gentle bosom of Mother Earth. And yesterday, a man, in death, taught his final lesson—how to act our parts in this never-ending play. Dr. Harkness is now one of the players, who had his "hour upon the stage" but the world is better because of his life and we, young undergraduates, can learn much from men like the Dean who have played their parts and played them well.

Dr. Harkness has finished but would that we could do as well as he, for

"His life was gentle, and the elements
So mixed in him that Nature might stand up
And say to all the world, 'This was a man.'"

REVIVING AN OLD IDEA

At a recent meeting of the class of Science '25, these Juniors took the first step toward making some suitable endowment to their Alma Mater on graduation. The idea is not entirely new, having been first used, by the Science class of '05, but the example was not followed. The re-birth of the plan by the present junior year in Science revives an old idea that is worthy of thought not only from the Science faculty, but from all others in the university as well. There is in many of the educational institutions of today an idea that an education can be bought with the money that is paid in fees. But to our way of thinking the returns that a university training offer are far more than those which the handing over of a few dollars for tuition each year can purchase. The great majority of students who are attending our Canadian universities are enjoying the privilege largely because of the efforts, the vision, the sacrifices and the material aid of those who have gone before. Remembering this debt which cannot be repaid to our benefactors, we can feel that we are paying back a small part of what is owed when we leave to those that are to follow some of the solid support that has been our good fortune to inherit. The junior year in Science is to be heartily congratulated on their excellent motive, and we wish them every success in its fulfilment.

CONDENSED COMMENT

Throughout the entire University interest in debating is becoming real and keen. Yesterday in Science there was a remarkable attendance for the choosing of the Faculty team and the men show that they heartily desire the University honours. To-night the first Inter-Faculty debate will take place between Arts and Medicine. Both sides will be strong and it is hoped that the reading room in the Union will be filled by those who are interested in this branch of college activities.

Last night's concert by the McGill Glee Club was another outstanding achievement for the foremost undergraduate musical organization. The chorus singers, the soloists, the accompanist, and the leader, all deserve the warmest praise, for they gave their best, which means the sacrifice of time and the involving of work. Again it is to be regretted that the Hall was not even fairly well filled. It is time that the undergraduate body awake from its state on non-musical appreciation and began to show support worthy of the efforts of such clubs as the one which performed last night.

NOTICES

R.V.C. THE DANCANT

Owing to the death of Dean Harkness, the The Dancant, which was to have been held in the Convocation Hall of R.V.C. last Saturday afternoon, was postponed until Saturday, December 15th. It is hoped that all who can, will attend as everything promises that it will be a very successful party.

MED. '28 ATTENTION

A class picture will be taken to-morrow after the Chemistry lecture at 1 p.m. in front of the New Medical Building.

All out and look your best!

THE CHEMICAL SOCIETY

Prof. N. N. Evans will address the next meeting of the Society, which will be held in Room 2 of the Chemistry Building, on Friday December 14th, at 5 p.m. His subject of address will be "Paracelsus."

C.O.T.C. READINGS

For "A" certificate: Infantry, Cavalry and Artillery.

"B" certificate: Infantry and Cavalry Candidates intending to write the examinations should make application for these at the Orderly Room.

C.O.T.C. LECTURES

There will be a lecture to-day in room 33 of the Engineering Building at 3.15 p.m. by Col. Alexander on "Protection at Rest," and on Thursday by Major Salmon.

S.C.A. OF R.V.C.

All women students of the S.C.A. are invited to attend the general monthly meeting of the S.C.A. to be held on Tuesday, December 11, at 7 o'clock in Strathcona Hall. Mr. Fritz Shalman will speak on the condition of students in Europe.

R.V.C. '24

There will be an important meeting of R.V.C. '24 to-day at one o'clock at the R.V.C.

SOCIAL WORKERS

All members of the School for Social Workers are requested to attend a meeting at eleven o'clock to-day in the new Common Room in the Arts Building.

TRACK CLUB

Will all members of the Track Team kindly meet at the Union at 1 o'clock.

C. W. Fullerton.

CHESS CLUB

The Chess Club will meet in the Union at 5 p.m. as usual. Will the following gentlemen please turn up at 5.15 for our match against North End to be held in the Union lounge.

A. Garelick, L. Kursner, I. Echenberg, J. A. Taylor, G. J. C. Potter.

MACCABAEAN CIRCLE

The next meeting of the Macabaeian Circle will be held this Sunday afternoon, December 16th, 1923, 2.30 p.m. sharp at the McGill Union.

The subject, "Resolved, that upon the Establishment of a Jewish National Homeland, assimilation of the Jews in the Rest of the World will tend to increase," will be supported by the affirmative, H. Soman, Law '23 and I. J. Wolf, Med. '23 in debate with Charles Braunstein, Arts '24 and Frank Godine, Arts '26, the negative.

Miss Ethel Stark will render a violin solo.

"EVOLUTION AND MAN"

An invitation is extended to students of all Faculties to hear the lecture on "Evolution and Man" by Dr. I. McL. Thompson, at the Medical Society meeting on Monday Dec. 17, at 8 p.m. in the Assembly Hall of the New Medical Building.

R.V.C. PARLIAMENTARIANS

All interested in the forming of the Labour Party which intends to enfranchise the R.V.C. please turn out at the caucus on Thursday at five in the Union.

R.V.C. ANNUALS

Class lists have been posted in the R.V.C. Common Room. Will all those wishing Annuals please sign up as soon as possible.

R.V.C. BASKETBALL CLASS

In co-operation with the R.V.C.A.A. a "basketball class" for those who either wish to learn to play, or desire to improve, will be held throughout the Basketball season on Thursdays from 2 to 3 in Molsen Hall.

This is a wonderful opportunity to prepare for a possible class team or a future R.V.C. team.

R.V.C. BASKETBALL

General practices will take place in the Girls' Gymnasium at the Montreal High School on Thursdays from 5 to 6 p.m. and on Saturdays from 2 to 3 p.m.

R.V.C. BASKETBALL

There will be a general practice in the girls' gym at the Montreal High on Tuesday, from 5 to 6 p.m. A match will be played against the Y.W.C.A. next week.

NOTICE

There will be a meeting of the Theological Students' Society next Wednesday, Dec. 12.

DENTALS

The next meeting of the Dental Undergraduate Society will take place at the New Medical Building in the Assembly Hall on Tues. Dec. 11th, at 7.45 p.m. The meeting will start sharp on time as many important matters are to be discussed. An interesting program has been arranged; the speaker of the evening being Dr. Thompson, of the Ontario Prophylactic Association. All are urged to attend.

HOCKEY STICKS

The following men will get hockey sticks as soon as possible from Bryson and Trihey, Room 17, 18 McGill College Avenue, above Woolworth's. MacGregor, Abbott, Morris, McGerrigle, Dempsey, Glennie, McNaughton, Wyse, O'Donnell, Munroe, Cameron, Bell, McMahon.

POOL TOURNAMENT

The draws for the second round are: W. Stein vs. N. Miller; H. A. Cohen, Bye.

NOTICE

All Rugby players please call at the Stadium at once for their Football clothing which was left there during the football season.

MANAGERS

The managers of the following clubs: Track, Rugby, Tennis, English Rugby, are requested to give write-ups of their clubs to the Annual at once.

SNAPSHOT COMPETITION

Student photographers are reminded that they may obtain a free Annual by handing in the largest number of snapshots of interesting college incidents. For particulars see B. K. Boulton, Photograph Editor; Pte. 351.

HISTORICAL CLUB

The fifth meeting of the Historical Club will take place this evening December 11th, at eight o'clock, at the residence of Eugene Lafleur Esq., K.C., 314 Peel Street. The subject under discussion will be "Democracy." L. H. Smith, Arts '26, will read the first paper, "An Outline of the 'Growth of Democracy,'" and A. Rendle Stone, the Secretary, the second, "Is Democracy Doomed?" A full attendance is requested.

ROBERTSON MEMORIAL FOUNDATION

The Rev. J. H. Edmison, D.D., Home Missions and Social Service, will lecture on the following subjects on the dates indicated in class room No. 1 of the college, (67 McTavish Street) at five o'clock in the afternoon of the Assembly's Board of noon.

This evening, Dec. 11—"Fifty Years of Home Missions" (1871-1924).

Wednesday, Dec. 12—"Rev. James Robertson, D.D."

Thursday, Dec. 13—"The Augmentation Fund."

Friday, Dec. 14—"Immigration."

These lectures are open to all students and all are cordially invited.

PHARMACEUTICAL SOCIETY

The semi-monthly meeting of the society will take place to-day, December 11th, 1923 at 8.15 p.m. in the New Medical Building. Mr. Bert will give an illustrated lecture on "Scurvy and Vaccines." The society extends a cordial invitation to Medicals and others interested in the subject.

MARITIME-WESTERN DANCE

Tickets for the Maritime-Western Dance to be held at the Venetian Gardens on Monday, December 17th are now on sale. They may be procured from the dance committee Jack MacDonald, Sci. '24, and H. T. Airey, Sci. '26, both of whom live at Strathcona Hall, or from any member of the executives.

JUNIORS

Any Junior who have not yet returned their proofs to Newman are requested to do so as soon as possible.

ONTARIO CLUB

A smoker will be held in the Union Cafeteria on Wednesday night starting at 8.15 p.m. A very attractive program will be presented. All students from Ontario are invited to attend.

RADIO ASSOCIATION

There will be a special meeting on Wed. Dec. 12th, at 5 p.m. in the lecture theatre of the Physics Building. Mr. A. Runicman, Radio Engineer of the Shawinigan Water and Power Company has consented to address the meeting and will speak on "Low Power Phone and Continuous Wave Transmission."

All interested are cordially invited to attend.

WATER POLO

There will be a water polo practice at Ripstein's tank to-day. All Seniors are urged to turn out to give the intermediates practice.

(Continued on Page 3)

McGILL ABLY REPRESENTED IN LEAGUE

Covenant Provides for Permanent Civil Service

OFFICE AT GENEVA

Dr. Bieler Will Speak Friday on League and McGill

That McGill had played a rather prominent part in the development of the League of Nations was one of the statements made to a "Daily" reporter by John Bieler, Arts '13, Law '18. One of the leading delegates at the first two Assemblies of the League was the Hon. C. J. Doherty, Professor Mentes in the Law Faculty, whilst the administration of the Finances of the League was entrusted to Sir Herbert Ames LL.D., a former Governor of the University, assisted by Mr. Bieler. Percy Corbott, one of McGill's most brilliant graduates and a fellow of "All Souls College" Oxford, acted as assistant Legal Adviser at the International Labour Office, an institution which is also established at Geneva and which operates in close connection with the League. Other McGill men had attended sessions of the League Committees and conferences in various capacities.

Speaking of the machinery of the League, John Bieler stated that the characteristic which differentiates the League of Nations from previous attempts at international political organizations, was the provision in the Covenant for a permanent Secretariat or international Civil Service. It was found during the war that the success or failure of the various international organizations depended largely on the presence or absence of a permanent Staff entrusted with the preparation and study of the questions under consideration, and the following up of the decisions taken. It was therefore recognized, as soon as definite plans were made for the establishment of the League at the Peace Conference that it should include a permanent staff drawn from as many countries as possible. Sir Eric Drummond was appointed "Secretary General" and he in turn chose Sir Herbert Ames, who had become known from coast to coast as the Organizer and first Hon. Secretary of the Canadian Patriotic Fund, as the first Financial Director of the League, and the latter appointed John Bieler as his "personal assistant" on the latter's return from overseas in the summer of 1919.

The Secretariat of the League of Nations is subdivided into a number of sections dealing with the various questions referred to the League by the Covenant. The duty of the Financial section is to prepare the budget, to collect the contributions due from the States members of the League, to make all payments, and in general to supervise the expenditure. Being asked for an account of his duties Mr. Bieler explained that his work consisted largely in drafting

THE IMPERIAL

To all lovers of the aesthetic, this week's program at the Imperial Theatre is of particular interest, presenting, as it does, a variety of graceful and elaborate dances.

The picture, entitled, "Soft Boiled," featuring Tom Mix, is a very entertaining comedy, combining laughs and thrills, with a good deal of human interest thrown in for good measure. Tom, as a fiery but conscientious youth from the west, endeavours to keep his temper and the law for thirty days and succeeds.

Vandyke and Vinci present a very pretty little Holland scene, working in several songs and dances and some clever repartee.

The inimitable pair, Pierce and Ryan, cause many a laugh by a peppy street scene, filled with jokes, songs and puns.

The Australian Mendozas, the famous pair of cyclists, thrill the audience with their daring stunts in the "Globe of Fate," a large steel-ribbed ball, in side which they defy gravity, staging races and looping the loop in great style.

A doctor and nurse scene, acted by Burns and Wilson, provides a good deal of amusement through jokes and clever repartee.

Letters addressed to the various Governments, writing and editing the financial documents submitted to the Council and Assembly of the League, acting as Secretary of the Supervisory Commission, which advised the Council on all matters pertaining to the Revenue and Expenditures, and taking the place of the Financial Director when he had to absent himself.

That the League of Nations in its present, or perhaps in a somewhat magnified form is an essential factor for the preservation of peace and the development of the New World is the opinion of practically all the leading statesmen, no matter to what school of thought they belong. Recent utterances to this effect could be quoted from Ramsey MacDonald and Mr. Baldwin, M. Poincare and M. Benes, M. Mussolini and M. Branting, Sir Lomer Gouin and the Hon. Mr. Graham. The League has naturally great difficulties with which to contend. When it was formed it was expected that it would be handed over to a stable world, established on a comparatively solid basis, but notwithstanding the conditions with which it has been faced since its inception, it can point out a number of definite achievements. It cannot be expected that the world, all of a sudden, can be changed by the introduction into international politics of an instrument such as the Covenant of the League of Nations, but it should be the aim of all thinking men to spread the idea of international co-operation without which the League can not hope to make real headway.

John Bieler will address the students of McGill University next Friday at 3.15 p.m. in the R.V.C. Hall. His subject will be "The League of Nations and McGill."

PREMIER TO BRING BILL BEFORE HOUSE

For the information of all those composing the opposition in the local House, and also for those enrolled in the new Labor Party, the Government wish to announce that it is their present intention to bring in a Bill which will prohibit the exportation of all unmanufactured wood from Canada. This Bill, it is stated, will come into effect one year and one day after its adoption.

The Prime Minister and his Cabinet feel that, with the introduction of this Bill, and its adoption, his government will have accomplished something which shall be of use and great service to the people they now represent.

Let us go to the Holiday Form—the Union House Dance.

The best number on the program is that presented by the Pileor and Douglas trio, who give some very delightful exhibitions of solo and group dancing, as well as singing some very entertaining songs. A take-off on the Valentino Argentine Tango is especially captivating.

Joe Darcy concludes a well-rounded program by delighting the audience with his songs and stories.

UNION CAFETERIA

E. S. COPE AND H. G. MONROE ARE ELECTED TO COUNCIL

Voting Yesterday in Science and Dentistry—Successful Candidates Well Fitted to Take Their Places on Students' Governing Body—Jekill a Close Second in Dentistry, While Warren Makes Good Showing in Science—Over Four Hundred Students Voted Yesterday.

E. S. Cope of Science and H. J. Munroe of Dentistry were yesterday elected as representatives from their respective faculties to the Students' Council. The voting was fairly heavy in both faculties, over one hundred going to the polls in Dentistry and over three hundred in Science, while the results, particularly in Dentistry, were extremely close.

Munroe, the Dents representative, was given a close run by Jekill, who finished only four votes behind him.

G. M. Warren, president of the Science Junior year, gave Cope a stiff fight, polling 84 votes to the winner's

organization of the student body, which has charge of all student activities.

Munroe spent two years at Varsity before coming to McGill, and while there, filled several positions of importance. Last year he played on the red and white senior hockey squad, and in the fall held down a berth on the Dents Interfaculty Rugby team, while this term he was elected Athletic Editor of this year's "Old McGill," the University Annual.

Selby Cope, who was returned victorious in Science, saw service during the war with the Canadian Artillery and with the Royal Navy. For four years he has played on McGill's first Rugby team. He is manager of this season's University Ski team, and treasurer of the Science Undergraduate Society.

The wide range of activities in which the successful candidates have participated argues well for their ability to handle the many affairs of moment which will come up for their consideration as members of the Students' Council.

They will take office after the New Year. Law and Medicine have returned their representatives by acclamation. They are S. D. Pierce for Law, and T. R. Delahay for Medicine. Today Arts decide between Gordie Nairn and Terry Mitchell, the elections in this faculty having been postponed on account of the funeral of the late Dr. Harkness.

The detailed results of yesterday's voting follows:
Dental Faculty—
H. J. Munroe—55 (elected)
Victor Jekill—51
Science Faculty—
E. Selby Cope—129 (elected)
G. M. Warren—84
Don Stewart—50
C. H. Napier—34.

C. ASS BASKETBALL STARTED SATURDAY

Sci. '27 Trounced Arts; Fresh Theologs. Defeat 'Sci. '26

Just prior to the Arts-Science game, Theology second year students engaged in a brisk battle with the Science Sophomores and finally emerged victors by a 16 to 9 score. The "Theologs" had the better of the play in the first half and piled up a score which the Science men were unable to overcome although they fought valiantly. McGill's score through the half was 16 to 9. The "Theologs" had the better of the play in the first half and piled up a score which the Science men were unable to overcome although they fought valiantly. McGill's score through the half was 16 to 9.

The line up:
Theologs Science
McGill's score through the half was 16 to 9. The "Theologs" had the better of the play in the first half and piled up a score which the Science men were unable to overcome although they fought valiantly. McGill's score through the half was 16 to 9.

Which at first showed signs of being a good exhibition of basketball developed into something just a little short of a massacre last Saturday afternoon when Science '27 walloped Arts '27 by 57 to 23 at Molson's Hall. Both teams started off fast, with Science having a slight advantage but missing many shots. After five minutes of play, however, the Science freshmen began to hit their stride and started a continuous attack on their opponent's basket which never ceased until the final whistle blew.

Although every man on the Science team had a share in the scoring, Thomas and Frith showed to best advantage, having ten and six baskets respectively. Clarke proved to have a keen eye in netting three spectacular ringers, while the general floor work and shooting of Moffatt and Walker was also outstanding. Cope and Callaghan each had one basket to his credit. The lone points made by the Arts students were the result of a neat basket by Silverstone early in the first period. The Science freshmen have now won two games.

The line up:
Sci. '27 Arts '27
Thomas Right Forward Silverstone
Walker Left Forward Swartz
Cope Centre Roy
Frith Left Guard Snielandt
Clarke Right Guard Miller
Moffatt Right Guard Erdrick
Callaghan Right Guard Erdrick

NOTICES

(Continued from Page 1)

ANNUAL BOARD
Important meeting of Annual Board this afternoon at 5:00 p.m. Everyone who is able should be present.

BASKETBALL
Juniors meet at North Branch on Wed. Dec. 12 at 8:00 p.m. for 3:30 game. Wear white jerseys.

ROYAL ASTRONOMICAL SOCIETY
A meeting of the Royal Astronomical Society of Canada will be held in the Macdonald Pigeon Building at 8:15 p.m. on Wednesday, December 12th. A lecture will be given by Dr. Howard T. Barnes on "Heat and Light from the Stars." It will be remembered that Dr. Barnes has done much research work on heat measurement, on which he is an authority.

CLUBS AND SOCIETIES
Would all clubs and societies who would like to have their photographs appear in the 1925 Annual kindly communicate with B. K. Boulton, photographic editor, Paveau 354.

THEOLOG. JUNIORS
All students of the Wesleyan, Presbyterian, Congregational and Diocesan Colleges who graduate from their respective colleges in 1925 are asked to pay their dues for the Annual Board to Dale More of the Congregational College without delay. This sum is 50 cents. They are also expected to have their individual photo taken at Noonan's for the Annual immediately.

ECONOMICS CLUB
The third meeting of the session of the Economics Club will be held next Thursday, Dec. 13, at 8:15 p.m. in the Smoking room of the Arts Building. Messrs. Foray and Nairn will present papers on "The Recent Difficulties between the British Empire Steel Corporation and its Men," the former representing the Corporation's side of the case, and the latter, the Union's. Refreshments will be served, following

ARTS ELECT REP. FOR STUD- DENTS' COUNCIL

Terry Mitchell and Gordon Nairn

VOTING TO-DAY

It is Hoped That Every Man Will Vote

Owing to the death of the late acting dean Harkness the Arts elections were postponed.

Today the faculty of Arts are being given a chance to decide what man they wish to have representing them on the Students' Council. Every student should consider carefully the platform of the two candidates. It is important that Arts return a strong, able representative on the Council, important not only from the faculty standpoint but also in consideration of the general welfare of the University.

Terry Mitchell and Gordon Nairn are the two candidates. They are both well known around college. Their platforms appear below.

TERRY MITCHELL
Born Montreal, 1902.
Educated Montreal High School, Bishop's College School, and St. Francis' College.
Activities—Snowshoeing (Intercollegiate), Commercial Society Executive '22-'23.
Vice-Pres. Commercial Society '23-'24.
President Commerce '25 ('23-'24).

"TERRY" MITCHELL

Arts' Candidate for Students' Council

PLATFORM
Having been honoured by nomination to represent the Faculty of Arts on the Students' Council, I am submitting herewith an outline of some of the things I should be in favour of if elected.

1. A policy of economy, in so far as it would conform to the best interest of the students.
2. A continuance of "Theatre Night"—Because I believe no other activity has done as much to bring the whole university together.
3. Now that athletics are no longer under the jurisdiction of the Students' Council I am in favour of the encouragement of those activities which have been more or less neglected in the past.
4. In conclusion, I am in favour of the closest co-operation between the various faculties. Towards the fostering of the true McGill spirit for which all of us are working and the one promise I am able to make is that if elected I will work to the best of my ability towards this end.

Terry Mitchell.

"GORDIE" NAIRN

Arts' Candidate for Students' Council

Born Montreal 1902; Prep School Montreal High. Activities: Class Baseball, basketball and hockey.

which discussion will take place. Students interested are invited, and Economics students advised to attend.

PHYSIOLOGICAL SOCIETY
There will be a meeting of the Physiological Society to-day, Dec. 11th, at 8:00 p.m. in the Biological Building. Mr. S. W. Britton, B.Sc., will speak on the subject, "Man a Hibernating Ancestry."

SNAPPY WORK IN WRESTLING ELIMINATIONS

Winners: Leveque, Phelps, Harvey, McIntyre, Chesley and Seale

MANY PRESENT

Men Are Preparing for Wrestling Meet at Y.M. Next Wednesday

Yesterday's wrestling eliminations at the Field House went off in fine shape. They were held on two different mats, so that two bouts were going on at the same time. Coach Smith was referee at one mat, while "Mats" Matthews the oldtimer, watched the boys contending on the other. Yesterday's victors were: Leveque, Phelps, Harvey, McIntyre, Chesley, Seale.

The first bout was between Silver and Leveque, in which the latter came out victorious. The match lasted five minutes. Leveque took the first fall with an inner half and ankle hold and the second fall with a Chanary and a headlock. Silver put a gains scrap.

The second bout was between Phelps and Seale with the former coming out the better man. Phelps is a newcomer from the States, and he has the American style down cold. Since coming here he has added Canadian aggressiveness to his mode of combat. He won with two falls in four minutes, using inner half-hold.

Harvey won the third match, with two falls in seven minutes using further arm hold and double head-lock. His opponent, Shaw, seemed very aggressive at the start, but Harvey was evidently in better condition.

The fourth battle took place between McIntyre and Haight. "Mac" is rather heavy-set, while Haight is tall and slender. The resulting match

Interfaculty baseball and football: Class executive '21-'22; President of Arts '25; Convener of Junior Prom. Committee.

PLATFORM
Should I be so honoured as to be elected as the representative of the Arts Faculty on the Students' Council I will endeavour:—To promote and support all minor sports so as to engender class and college spirit and provide material for the college teams.

- To observe the utmost economy in all college activities.
- To have the constitution of the Students' Council so changed so that the School of Commerce will have a representative of their own.
- To hasten as much as possible the erection of a gym and dormitories.
- To represent the interest of the Faculty of Arts to the utmost of my ability.

A. Gordon Nairn.

MCGILL TEAM DEFEATED IN BASKETBALL

Motor Machine Gunners Vanquish Intermediates

SCORE 22-14

Collegians Overcome by Opponents Weight and Team Play

Last night the McGill Intermediate Basketball team went down to defeat before the team-work and superior weight of the Motor Machine Gunners at the Mance St. Armouries by a 22-14 score. The red and white fought hard and in the first half held their opponents to a tie, but in the second the Gunners kept up a steady attack and scored fourteen points to McGill's six.

The restricted space of the Armouries' Gym, prevented open play and the Collegians were unable to break away to any great extent.

In the opening minutes of the first half, McGill got the jump on their opponents, running up eight points to four. Then the soldiers' team-work began to tell. They effectively smothered the student rushes and continually carried the ball into University territory. But their shooting was wild and it was only in the last minute of the half, after a continual

was consequently somewhat amusing. McIntyre took one fall in two minutes. Haight broke out from under a couple of times, but the strength of his opponent kept him down. This bout lasted the full nine minutes.

The next to last bout was between Chesley and Brock. Chesley was more experienced, and he gained the first fall within two minutes and a second fall a minute later with a front arm hold and bar.

The last match was staged between the "Kids," Seale and Rosenbloom, who gave a snappy exhibition. Seale gained two falls in one minute.

There was a large crowd of spectators from the different faculties, and very great interest is being shown in the B.W. and F. eliminations. A regular practice followed the bouts. Coach Smith put the boys through a snappy work-out in preparation for the Y meet next Wednesday. The next wrestling practice will be held Thursday at five o'clock, at which the following bouts will be staged.

150 lb. class—Harvey and McIntyre of Science.
Zaritsky and Adams of Medicine.
Vineberg of Commerce and Thompson of Theology.
145 lb. class—Goddard and Fisher of Medicine.
McNaughton and Chesley of Arts.
135 lb. class—Brown and Howes of Science.

Lombardment of the basket, that they scored the points which made the score 8-11.

In the second half, the soldiers kept up their attack and showed a marked improvement in marksmanship. McGill broke away more frequently in this period, but the weight and combination of the Gunners carried the play back and kept it in red and white territory for the greater part of the half. The final whistle found both teams playing hard with the soldiers holding an 8 point lead. Final score: Motor Machine Gunners—22; McGill Intermediates—14.

ARTS SOPHS WIN AGAINST DENTISTRY

Brotman Played Fine Basketball Throughout Game

SCORE OF 25-9

Winners Display Fine Team-work and Good Condition

Last night at Molson's Hall, the well-trained team of the Arts Sophomores succeeded in running up a 25-9 score against Dentistry '26. The teams were both late in appearing and referee Mace could not call the game until 7:30 but for the two short periods played, both teams battled hard for the honours which went to the Arts team.

During the opening moments of the game, both teams in their anxiety to score shot from all positions on the floor. This resulted in many wild shots by both sides. At times, however, the Arts squad showed stretches of brilliant combination, which were rendered fruitless by the constant hard-checking of the Dents defense.

In the first period many personal fouls, resulted in free throws for both sides; and in this way Arts soon provided themselves with a substantial lead, which they retained throughout the game. Held, of Arts, on a free throw, gained by Star's foul, opened the scoring with a counter for his team. This was followed by a brilliant rush by Brotman, the Arts captain who succeeded in counting. At this juncture Dents assumed control of the play, and after five minutes they won their first point by a free throw.

Play then worked back and forth, neither team slackening its pace but their combined efforts to score caused what seemed to be a lull. Brotman brought his team back to its stride by a pretty shot from deep centre. Watson of Dents retaliated shortly with a shot which gave the Dents their first basket. Star and Finklestein on the Dental defense were kept busy with a steady rain of shots from the Arts forwards, and time and time again they saved what looked like a certain points by breaking up three or four-men combinations. In this temporary lull of scoring, McDonald of Arts made himself noticed by scoring two shots in quick succession. With the addition of these points the period closed. Score: 16-5.

Due perhaps to the short rest, the Dents returned with renewed vigour and after breaking up many rushes of the substitute forwards who had re-

ANTI-VIVISECTION DEBATE ON TO-NIGHT

Each class president is earnestly requested to remind the members of his year of the Arts-Medicine debate which is to be held in the lounge room of the Union at 8:15 tonight.

The topic of vivisection is a question that has been hotly debated throughout the continent and in view of the fact that both faculties are being represented by exceptionally able speakers, a very lively discussion is to be anticipated. Every person who takes any interest at all in the progress of learning should most certainly avail himself of this opportunity for hearing the pros and cons of such a prominent issue. The resolution reads as follows:
Resolved: That the present anti-vivisection campaign is justifiable.

A. N. James, '26; B. Cohen, '24, and W. Shepherd, '26, will take the affirmative for Arts, while G. W. Brown, '28, O. Kleinberg, '25, and Campbell Brown, '24, will take the negative for Medicine.

Resolved: That the present anti-vivisection campaign is justifiable. Star and Goodnot still continued to bear the brunt of their teams' responsibility and played cleverly at varied intervals. Star, on a long rush, made his final counter from the right side-line, just before the final whistle, play ending 25-9 in favour of Arts.

For Arts, Held, Becker, and Brotman could be classed with the best, while for Dentistry, Star and Goodnot did good work.

The line up:
Arts '26 Dents '26
Rt. Forward
Held Adams (sub)
Left Forward
Becker Rosenburg
Dainow Thompson
Centre
McDonald Goodnot
Kursner
Rt. Guard
Brotman Star
Fogul
Left Guard
Brown Finklestein

The early game which was to have been between Arts '27 and Com. '27, was granted to Commerce by default since the Arts team failed to show up, with the exception of one worthy individual, and the Commerce team were on the floor, in uniform, waiting for their opponents.

We're off—to the Union—To the House Formal.

FUNERAL OF DR. J. HARKNESS HELD YESTERDAY AFTERNOON

Professors and Students Attend Services in Christ Church Cathedral, Conducted by Dean Carlisle—Sir Arthur Currie Read the Lesson and Principal Rexford the Prayers—Burial in Mount Royal Cemetery.

Yesterday afternoon at Christ Church Cathedral the last offices were performed for the late Dr. Harkness. The officiating clergyman was Dean Carlisle, dean of Christ Church, assisted by Sir Arthur Currie and Principal Rexford, who read the lesson and the prayers respectively. After the service the coffin was taken from the church and laid inside the hearse waiting outside. The mourners, consisting mostly of students and professors of the Faculty of Arts, then filed out, and marched ahead of the hearse. Immediately before the latter was an automobile containing flowers of condolence, sent by the many friends and admirers of the deceased. The hearse was followed by three or four motor cars which completed the funeral procession. The whole line then proceeded up University Street, where, at the corner of Sherbrooke St., most of the people dispersed. The hearse continued to the Mount Royal Cemetery, where the remains of Dr. Harkness were laid to rest.

LATE DR. HARKNESS

Whose Loss Is Mourned by the Entire University

Dr. Harkness, who had been acting-dean of the Faculty of Arts since the departure of Dean Laing in October, died suddenly last Friday evening. Dr. and Mrs. Harkness had been entertaining friends, and when they left Dr. Harkness went upstairs. His wife and brother-in-law followed him later, and found that Prof. Harkness had collapsed, having died instantly from heart failure. At a university service held Sunday morning, dedicated to Dr. Harkness, Principal Fraser paid a lasting tribute to the memory of the late acting-dean. And yesterday, December 10, the funeral was held at Christ Church Cathedral and burial took place in the Mount Royal Cemetery.

The procession was formed at the residence of the deceased—the undergraduates first, the staff, and then the hearse and several motor cars. As the coffin was brought out those who had congregated before the house took off their hats. The cortege then wended its way to Christ Church Cathedral.

The mourners entered the cathedral and seated themselves in the central pews, while the staff occupied the front pews. The coffin was then brought in and wheeled forward by

four ushers, followed by several honorary pall-bearers. The coffin was left standing before the steps of the altar, and Sir Arthur Currie, Dean Carlisle, Principal Rexford, and Prof. Brockwell entered the chancel.

The regular order of funeral service was followed out, with the addition of two hymns and several prayers at the end. The hymns were rendered by the McGill Glee Club, led by Key which occupied the choir, and the additional prayers were offered by Principal Rexford of the Diocesan College, who read the prayers throughout the service as well as the responsive readings. Sir Arthur Currie read the biblical passage, which was taken from the fifteenth chapter of the first book of Corinthians, beginning at the twentieth verse. The Very Reverend Dr. Carlisle, dean of Christ Church Cathedral, made all the announcements. The church organist, Dr. Whitehead took part in the ceremony to the extent of playing the organ for the two hymns, which were "O love, that will not let me go" and "For all the saints."

As the service was breaking up, Dr. Whitehead played the Dead March from "Saul." The procession formed outside the cathedral as before. It just below the corner of University and Sherbrooke Sts., the procession stopped, and the professors and students formed two lines, between which the hearse slowly passed, while all present removed their hats in silent recognition. The hearse turned to the right at the corner of University and Sherbrooke, and started for the mountain, and the cemetery. After this the procession disbanded.

Lectures had been cancelled in the Faculty of Arts yesterday afternoon, in order that teachers and students would not be inconvenienced in attending the funeral. The response on the part of the students was splendid; they turned out in an immense body to do homage to their late dean. Prominent among those of the staff, who attended the funeral service and took part in the procession, are the following: Dr. Leacock, Prof. Caldwell, Prof. Du Roure, Prof. Williams, Miss Ethel Hurlbutt, Dean Adams of the Faculty of Applied Science, Prof. Sugars of the Department of Commerce, Col. Thomson, Prof. Evans, Prof. Slack, Prof. Lloyd, Prof. Arthur Willey, Prof. Woodhead, Dr. Martin, dean of the Faculty of Medicine; Dr. Thornton, dean of the Faculty of Dentistry; Vice-dean Smith of the Faculty of Law; Dr. Porter, Dr. MacCallum, Mrs. Moyse, Prof. Brodie Brockwell, Dr. Cyrus MacMillan, Dr. Fryer, Prof. Latham, Dr. Tait, Prof. Bancroft, Prof. Reilley, Dr. Brown, Dr. Mackay, D. Murray, Dr. Rutan, Dr. Eve, Dr. A. R. Gordon, Dr. Walter, Dr. Hickson, Melle Touren, Prof. Mathews, Prof. Gillson, Prof. Tranguar, Prof. Nobbs, Prof. Lambert, Prof. Waugh, Dr. Simpson, Prof. Day, and Prof. Fife. Besides these there were Sir Arthur Currie, Senator Francis McLennan, a Governor of the University; Principal Rexford, and Col. Bovey.

Sir Arthur Currie, Dr. Eve, Prof. Brown, Dr. Leacock, Prof. Gillson, Dean Adams and Col. Bovey were the few who continued to the cemetery. Here a simple service was performed by Dean Carlisle—the last service over the coffin before its final consignment to the ground.

"COLLEGE SUNDAY" TO BE OBSERVED

Special Service on Sunday at Emmanuel Church

Next Sunday, the 16th, is being observed as College Sunday at Emmanuel Church, Drummond Street, and at the evening service, at 7.30 o'clock, the McGill University Glee Club will replace the regular church choir. Two or three pieces will be sung by the Club during the service.

Dr. William C. Graham, of the Congregational College, who is at present occupying the pulpit of Emmanuel Church, will preach a special sermon for this service, the topic of which will be "The Sportsmanship of Jesus." Dr. Graham is a very forceful speaker and has been delivering some splendid sermons at Emmanuel Church during the past few months, and it is felt that those who avail themselves of this opportunity to participate in this service and hear Dr. Graham will have no cause to regret it. It was announced last Sunday that there will be a social hour after the service to which all are invited. Another feature of the service will be that, through the courtesy of Station CIVIC, The Northern Electric Company will broadcast the entire service. Therefore, those who for any reason will not be able to attend this service (and it is hoped that they will be few), will be able to follow it by means of radio.

It is hoped that professors and students will be present in large numbers in order to make the service a success for many obvious reasons.

Further particulars of the service will appear later.

MACCABEAN CIRCLE AT UNIO. DEC. 16TH

The programme of the next meeting of the Maccabean Circle, to be held on Sunday at 2.45 p.m., at the Union, augurs well for an interesting afternoon. There will be a debate: "Resolved that with the establishment of a Jewish State in Palestine, the Jews in the rest of the world will assimilate." The speakers on the affirmative will be H. Sloman of Law '24 and I. Wolfe, Med. '28 while the negative will consist of Chas. Brownstein Arts '24, and Frank Godline Arts '28. The subject is one of current interest and it is certain to elicit some brilliant oratory and keen augmentation from those speaking. Moreover, the debating team that meets Toronto Menorah later in the year will be chosen from men who have spoken on the Maccabean floor. Student discussion is also invited on the topic of the debate. A musical item will round out a satisfactory programme. All students are cordially invited to attend.

S.C.A. OF R.V.C. WILL HOLD AN'L. "STUNTS"

On Wed., Dec. 12, at 8.15 p.m., at Strathcona Hall, the S. C. A. of the R. V. C. will hold a Stunt Night, which promises to be even more enjoyable than its predecessor of last year.

Much of the talent of the R. V. C. is contributing to make the evening a success. Candy will be sold, and the programme will consist of catchy musical numbers, a dialogue, recitations and stunts themselves. The actual nature of the stunts is shrouded in mystery, but sundry little hints have been dropped to the effect, that the co-eds will give a dramatic interpretation of well known poems by their favorite nineteenth century poets. They will also put on a thrilling drama of red-hot passion an adventure in the wild and woolly west.

All this may be enjoyed for the modest sum of 35c. Tickets can be procured at the R. V. C. and at Strathcona Hall.

MEDICINE TO MEET ARTS IN DEBATE

(Continued from Page 1)

the faculty. The question which is to be debated to-night is of vital interest. The debaters are all out to win and they will present arguments that have been thoroughly thought out after much study of their subject.

The affirmative side is to be debated against by Otto Clineburg, Hamilton and Hamilton of Medicine while W. S. Shepherd, Cohen and Jones will represent Arts. H. O'Hagan will be in the chair and

we do not want to be mankind, and secretly, they do not even wish to be Christians. Here is our battlefield indeed. In Canada, as in Austria, in England as in France, we must fight against this spirit, this latent bestiality. Is this idealism? Not we want reality, we want real true men. We want men of this century, able not only to drive aeroplanes, but also to truly live with his brothers in this small world. "Con millionaires" two work all together.

THEATRE FRANCAISE

"The Leavenworth Case" is the title of an absorbing and fairly well acted mystery play showing at the Theatre Francaise this week. Based on the story by Anna Katherine Green, the original in all its essential details. Perhaps it is due to this reviewer's strong hankering after mystery tales that he describes the play in question as absorbing, but he is sure that anyone with the slightest leaning toward this type of story will be amply repaid for the trouble of going out of his way to see the picture.

The story centres around the murder of an eccentric old being, Ira Leavenworth, a man as wealthy as he is moody. His two nieces, members of his household, both fall under suspicion, and the purport of the story is, of course, to clear them of this "malignant" charge and to bring to light the real culprit. The old man's attorney is, as one has grown accustomed to expect, in love with one of the nieces so that besides being a loyal friend of the deceased, he has an added incentive to bringing the criminal to light. A mysterious caller, Robbins, alias Anderson, drops in to the story for a while, and the plot thickens.

However, the guilt is finally laid on the head of the private secretary of old Ira. The love-fired attorney had a sneaking suspicion throughout the proceedings that the eerily-looking "confidential" was the guilty man, but he could not get the goods on him. The secretary, as a matter of fact, confessed his guilt. But the picture does not end until a thrilling roof-fight is staged, and the murderer is sent hurtling through the air by the lawyer.

Mack Sennet has lost none of his pen, the comedy on the programme, produced under his direction is ample proof of that.

SHOULD SEND ORDERS FOR ANNUAL NOW

Class Presidents Have Subscription Lists

PRICE \$3.75

Annual Will Only be Printed to Fill Subscriptions

The Annual Board have placed a subscription list in the hands of the class presidents and the students have the opportunity of now ordering their annual. The policy that the board is following this year is the same as in past years. The lists are being passed around the classes, and every man that wants an edition will sign his name, and the price, \$3.75, will be deducted from his caution money. The Annual Board announce that the book will only be printed to cover the orders received and any man who wants to make sure of securing a copy of the coveted volume will have to sign the lists.

The Annual is one of the institutions of the university. It is a complete record of the college year, and is a memento that any student may be proud to have in his or her possession. In looking through its pages it will bring back the college days that are all too short, and kindle many happy memories. This year the Board are striving to publish the best Old McGill that has ever been placed in the hands of students, and in order to help them on their way it is of the greatest importance that the subscription lists should be filled and handed back as soon as possible. This will help the publication to a great extent and enable the matter to be placed in the hands of the printer at an early date.

The men who are in charge of the different clubs and societies must send in reports of their activities during the session, and it is of the utmost importance that these be handed in at an early date so that the volume can go to press at an early date.

Amongst other things the Annual gives complete record of the sporting side of college life. This will be a very large feature in this year's edition, it is hoped to give a large portion of the book up to the doings of McGill in the realm of Sport.

Mr. McDermot, the debating coach, will be present to offer criticisms on the various speeches. The decision will be left to the audience as a vote will be taken at the end of the debate and that side receiving the largest number of votes from the audience will be considered the winners. As the subject under discussion affects the medical men very seriously there will undoubtedly be a great number of men present. Arts have always taken a great interest in debating in the past so more than probably they also will be there in large numbers. The speakers have been chosen by a series of eliminations and are therefore the best debaters of their respective faculties.

Commerce will debate against Science next Wednesday evening.

EXCELLENT CONCERT BY GLEE CLUB

Make First Appearance for the Year

MR. KEY DIRECTOR

Miss Izard and Miss Johnson Were Soloists

Last night an audience of music lovers gathered at R. V. C. to hear the McGill Glee Club give its first concert for the year. Mr. Harold Eustace Key one of Montreal's foremost choir leaders who has led the club since its reorganization three years ago and again occupied the directors stand, while the club was assisted by two soloists well known to local audiences: Miss Mary Izard, violinist and Miss Helen Johnson, soprano.

The club were rewarded by having a much better audience than at their first concert of last year but as usual it consisted mostly of Montreal music followers. The persistent absence of students has one of two apparent explanations; either there is a lamentable lack of appreciation for good music among the student body or the old proverb "A prophet hath no honour in his own country," applies.

Nothing need be said of the performance of Miss Izard or Miss Johnson the associate soloists. Both were invariably encored. Miss Johnson's singing of "Primavera" by Harold Eustace Key was particularly well received. An encore she gave. The "Early Morning" by Graham Peel and "Ring O' Roses" by Dunhill.

"Second Sonata" by Healy Willan which incidentally was then given its first performance in Montreal was the most popular of Miss Izard's numbers. Among her numerous encores she included "Café Song" and "Oriental" by Cui.

The Club showed to best advantage in its rendition of the part song "Loch Leven Love Lament" from "Songs of Hebrides" and arranged by Hugh Robertson.

"The Turtle Dove" a folk song by R. Vaughan Williams was another of the Clubs best numbers and had to be repeated. The solo part in this song was taken by John Shepherd, Arts '27. "Over the Sea to Skye" was sung by request. The clubs' superior interpretation of this old favorite have made it exceptionally popular with their audiences for they have been called upon to sing it at every concert they have given since they first sang it in 1921.

Their final number, "Peter the Cat," a humorous part song by Paul Eastman made a popular appeal and was encored.

The order of the programme follows:

THE CAPITOL

This week at the Capitol the management present a screen version of Kipling's "The Light That Failed" and although some will find cause to complain and feel somewhat disappointed over the many changes that have been made in its transition from the book to the screen, nevertheless it is an excellent picture and has been the attraction for capacity crowds.

Mr. Percy Marmont's portrayal of Dick Helder is an excellent one and the vivid manner in which the scenes are enacted showing the gathering of the "fog" and the final blindness are very touching.

Miss Sigrid Holmquist as Mabel proves an able support for Mr. Marmont in the scenes that she appears with him, particularly the last where a great deal of pathos is brought out and the final happy ending, although deviating from the book apparently satisfies the audience.

Miss Jacqueline Logan as Betty and Mr. David Torrence as Torpenhow are the remaining parts that are featured. Miss Logan is particularly worthy of mention as she acquits herself most skillfully in her colourful role.

On the whole the picture is very good and the humour, pathos and romance that is prevalent throughout grips the attention until the end. A Hal Roach Comedy, "Circus," and the weekly news review complete the programme.

- Air (in three parts "Come Sirrah Jack Ho"—Weekes. Madrigal "Lo Country Sports"—Weekes.
- Songs. (a) "The Beat of a Passionate Heart"—Montague Phillips. (b) "Primavera"—Harold Eustace Key. Folk Songs. (a) "A Farmer's Son so Sweet"—R. Vaughan Williams. (b) "Turtle Dove"—R. Vaughan Williams.

EMPHASIZED WORLD-WIDE CO-OPERATION

(Continued from Page 1)

and truth to our own country and to our neighbours? We know that the Einstein theory of relativity is true but we have no method of proving that the English are not "perfidious" and the Germans not Huns. It is to tolerate this lack of knowledge, it means that we affirm it. At last we destroy all goodness of our own national soul if we do not believe in the worth of mankind. We could not say that we have a modern century, even though we go to all planets. If we do not know our brothers in the world. Alas, how difficult it is to get news of other countries. If Germans started to eat dead corpses and to breed two-headed calves, then might we be able to get news about the people in that country.

But this war against error and darkness in political life is a war against public opinion, here and in Europe. And truly it is better so. We thank our fathers for the gift of life and for our opportunities but we want to prepare our way ourselves. Let us construct a new view of the world. All over the world the students speak so. Ask your Chinese and Japanese friends. There is the English movement, the Austrian and German Youth Movements. There are thousands of young students in my country who have new ideas and are willing to express them. For example, there is the "Wandervogel" movement, working for the special union and a new form of life between

all classes of society. These students present old Mystery plays for the peasant. They are warriors against alcoholism and against every moral and spiritual intoxicant. There is the Student Movement working for harmony and clearly relations between men. Educate yourself by this and you will find value and happiness, not by the belittling of your neighbour. There are groups fighting against those strong minorities, who believe that guns are the best arguments for the truth.

And what about the French movements? There are students working for "La Jeune République" and also for "L'Eclaire." We must admire those who are struggling against that almost immovable dark mass called public opinion. They are not radical nor abstract idealists. They are working for their own countries and therefore they need knowledge of the world and want co-operation German students, working together, means more than the battle of Amiens. It is not the same in England or in Canada, in China or in Japan?

It seems that the knowledge of man has no value. Au contraire. Peace means the destruction of manufacturers, and to say that a people want war means good business. But today we see that peace is really the better business. And this necessitates our self education to a higher personality. Christian rules are for Christians but there is a law for other peoples also to strive for humanity and human dignity. Some say winning of another championship for
